

**SC orders slaying judge when frequent karate bar**

**By Mike L. Sison**  
 The Supreme Court has ordered the slaying of a judge who was frequently seen at a karate bar.

The court's decision was a surprise, as the judge was widely respected for his integrity and impartiality.

The case involved a judge who was found to have a close relationship with a group of people who were involved in a series of slayings.

The court ruled that the judge's behavior was a clear violation of the judicial code of ethics, and that he should be removed from the bench.

The decision was a landmark one, as it showed that the court was willing to take action against judges who were involved in criminal activities.

### Escort girl tells Senate 2 lawmakers are clients

**By Michael Sison**

An escort girl has testified in the Senate that two lawmakers are her clients.

The girl, who is a minor, was asked to testify during a hearing on the issue of child labor.

The girl's testimony was a shocking revelation, as it showed that lawmakers were involved in the exploitation of children.

The Senate is now looking into the matter, and the two lawmakers mentioned in the testimony are under investigation.

 BY JEFFREY M. HARRIS

WASHINGTON, Oct. 10 — A new poll shows that Asian-American voters are more likely than other groups to favor John Kerry over George W. Bush in the 2004 presidential election.

The poll, conducted by the Pew Research Center, shows that 68 percent of Asian-Americans favor Kerry, compared with 55 percent of the general population.

The poll also shows that Asian-Americans are more likely than other groups to be dissatisfied with the way the war in Iraq is being handled.

The poll was conducted from Oct. 6 to Oct. 9, 2003, among 1,000 adults, including 100 Asian-Americans.

The poll is part of a series of surveys by the Pew Research Center that examine the attitudes of different racial and ethnic groups in the United States.

The poll is one of the most comprehensive surveys of Asian-American voters in the United States.

**M**ost people are used to seeing a large hotel on a large beach. But not on a tiny sandbar. That's what a group of people in the town of Ocean City, N.J., are trying to do. They want to build a hotel on a tiny sandbar in the ocean. The hotel would be 10 stories high and would have 100 rooms. It would be the tallest building on the sandbar. The hotel would be built on a sandbar that is only 100 feet wide and 100 feet long. The hotel would be built on a sandbar that is only 100 feet wide and 100 feet long. ## Bomb kills boy, hurts 20 in Rizal fiesta

By Liza S. de Peralta

MANILA (Philippine Daily Inquirer) — A 10-year-old boy was killed and 20 others were injured in a bomb explosion during a fiesta celebration in Rizal province, police said.

The explosion occurred at the Rizal Provincial Capitol grounds on Tuesday night. The bomb was placed in a trash bin near the entrance of the building. The explosion was heard by people in the area, and many were running towards the building.

The boy, who was 10 years old, was killed by the explosion. He was found lying on the ground near the entrance of the building. He was taken to a nearby hospital, but he died shortly after arriving.

Twenty other people were injured in the explosion. They were taken to a nearby hospital for treatment. The injuries were not life-threatening.

The police are investigating the explosion. They are looking for anyone who might have placed the bomb. They are also looking for anyone who might have seen the bomb.

The explosion occurred during a fiesta celebration. The fiesta was held to celebrate the founding of Rizal province. It was a day of music, dancing, and food.

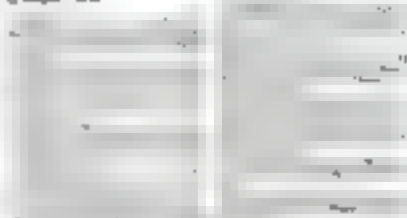

The explosion was a tragedy. It was a reminder that violence is still a problem in the Philippines. It was a reminder that we need to do more to keep our children safe.

A person is seen in a state of distress or being attended to, likely related to the bomb explosion.

## Placere credits its certification body

Placere, a small town in the northern part of the country, has been recognized as a "Model Town" by the National Commission on Government Organization and Management (NCOM). The town's success is attributed to its effective governance and community involvement. The certification was awarded by the NCOM, which is the highest authority in the country for the promotion and development of local government units. Placere's achievement is a testament to the dedication and hard work of its local officials and residents.

## Power-intensive Luzon users to choose own source

Manila, July 19 (PDI) — The Department of Energy (DOE) is considering allowing power-intensive users in Luzon to choose their own power source, a move that could significantly impact the region's energy market.

The DOE is currently in the process of developing a regulatory framework for this initiative, which aims to provide greater flexibility and competition in the power sector. This move is seen as a step towards reducing the cost of electricity for large industrial and commercial users.

The initiative is part of the DOE's broader strategy to diversify the country's energy sources and improve the efficiency of the power supply. It is expected that this will lead to a more dynamic and competitive market for electricity in Luzon.

### CAPITAL EXPENSES

## LRTA to borrow P7.2B for 2005

By Maria L. Rivera

Manila, July 19 (PDI) — The Light Rail Transit Authority (LRTA) has announced its intention to borrow P7.2 billion for capital expenditures in 2005. The funds will be used to finance the construction and expansion of the LRT system, including the LRT Line 1 extension and the LRT Line 2.

The LRTA is seeking the loan from international financial institutions to support its infrastructure development. The authority has expressed confidence that the loan will be successfully secured, given the strong support from the government and the public for the LRT project.

The LRT system is a key component of the Metro Manila transportation network, and the expansion is expected to significantly improve the mobility of commuters. The LRTA is committed to providing high-quality service and ensuring the safety and reliability of the system.

## DTI backs proposed new Ro-Ro routes

By Maria L. Rivera

Manila, July 19 (PDI) — The Department of Trade and Industry (DTI) has expressed its support for the proposed new Roll-on/Roll-off (Ro-Ro) routes between Manila and various ports in the Philippines. The routes are expected to enhance trade and transportation efficiency.

The proposed routes include connections to ports in Cebu, Iloilo, Zamboanga, and other major ports. The DTI believes that these routes will provide a more direct and cost-effective way to transport goods and passengers, thereby boosting the country's trade and economic growth.

The DTI is currently in the process of coordinating with the relevant government agencies to ensure the smooth implementation of the proposed routes. It is expected that the routes will be operational within the next few months.

## PAJ celebrates 28th year

Manila, July 19 (PDI) — The Philippine Association of Journalists (PAJ) celebrated its 28th anniversary on July 19, 2005. The association, which has been a leading voice for the journalism profession in the Philippines, held a series of events to mark the occasion.

The events included a seminar on the future of journalism, a reception for PAJ members, and a performance by a group of young journalists. The PAJ president, who addressed the gathering, expressed his pride in the association's long history and its commitment to upholding the principles of journalism.

The PAJ continues to work towards the improvement of the journalism profession and the promotion of press freedom in the Philippines. It remains dedicated to its mission of serving the public and the media community.

4. Find the area of the triangle formed by the lines  $x + y = 1$ ,  $x - y = 1$ , and  $x = 2$ .  
 Solution: The lines  $x + y = 1$  and  $x - y = 1$  intersect at  $(1, 0)$ . The line  $x = 2$  intersects  $x + y = 1$  at  $(2, -1)$  and  $x - y = 1$  at  $(2, 1)$ . The area of the triangle is  $\frac{1}{2} \times \text{base} \times \text{height} = \frac{1}{2} \times (2 - 1) \times (1 - (-1)) = 1$ .

**W**hen it comes to safety, it does not get much more important than when it comes to using liquefied petroleum gas (LPG), also known as propane, in the home. It is a flammable gas that can cause fires and explosions if not handled properly.

The Department of Trade and Industry (DTI) has issued a new set of guidelines for the safe use of LPG in the home. These guidelines are intended to help consumers understand the risks of using LPG and how to avoid them.

The guidelines are divided into three main sections: general safety, installation, and use.

**General safety:** Consumers should always use LPG in a well-ventilated area. They should also avoid using LPG near open flames, such as candles or incense burners. It is also important to keep LPG cylinders upright and secure.

**Installation:** LPG appliances should be installed by a qualified professional. Consumers should also check for leaks regularly and report any leaks to the gas supplier immediately.

**Use:** Consumers should always use LPG appliances according to the manufacturer's instructions. They should also avoid using LPG for purposes other than those intended.

## **The Consumer** **Marylene Delacruz** writes

When it comes to safety, it does not get much more important than when it comes to using liquefied petroleum gas (LPG), also known as propane, in the home. It is a flammable gas that can cause fires and explosions if not handled properly.

The Department of Trade and Industry (DTI) has issued a new set of guidelines for the safe use of LPG in the home. These guidelines are intended to help consumers understand the risks of using LPG and how to avoid them.

The guidelines are divided into three main sections: general safety, installation, and use.

**General safety:** Consumers should always use LPG in a well-ventilated area. They should also avoid using LPG near open flames, such as candles or incense burners. It is also important to keep LPG cylinders upright and secure.

**Installation:** LPG appliances should be installed by a qualified professional. Consumers should also check for leaks regularly and report any leaks to the gas supplier immediately.

**Use:** Consumers should always use LPG appliances according to the manufacturer's instructions. They should also avoid using LPG for purposes other than those intended.

“The two models of support provided are not mutually exclusive,” says Burt. “We will be continuing to provide training and support to our existing staff, while also recruiting and training new staff to help us meet the growing demand for our services.”

For 2011, the company is projecting a 10% increase in revenue, with a 15% increase in operating income. The company is also projecting a 10% increase in capital expenditures, with a 15% increase in free cash flow.

the 1990s, the number of meetings in the group has increased. There is one meeting a week. Further, several members have joined. Although the group is not strictly formal, it has a structure. It has a chairperson, a secretary, and a treasurer.
